|                             |   |
|-----------------------------|---|
| <i>95% pure Exosome</i>     | Isolation from serum, cell media... Cat.# P101 / P100           |
| <i>Exosome Imaging</i>      | Exosome EM-easy kit Cat.# P130                                  |
| <i>Detergent-free</i>       | Exosomal Protein Extraction for proteomics Cat.# P201           |
| <i>12-min.</i>              | Mouse Tail DNA Extraction Kit Cat.# T605                        |
| <i>1 drop, do PCR</i>       | PCR Master Mix <i>in dripping bottle</i> Cat.# W2599-5          |
| <i>C5a &lt; 7.8 pg/ml</i>   | Mouse C5a ELISA Kit Cat.# T301                                  |
| <i>Better than Matrigel</i> | Real 3D cell culture gel, 3-stiffness Cat.# P720                |
| <i>90% viability</i>        | Human primary cells: PBMC, CD34 <sup>+</sup> , Disease Cells... |
| <i>½ market price</i>       | PCR / DNA kits, Lenti/ Retrovirus Titer-Up Reagent              |
